

Data Spark Placement Policy

At Data Spark, we are dedicated to providing our students with the skills and knowledge they need to succeed in the field of data science. As part of this commitment, we have developed the following placement policy to ensure that our graduates are well-prepared for career opportunities in the industry.

Attendance Requirements:

In order to be eligible for placement assistance, students must maintain an attendance rate of at least 90% throughout their course of study. Regular attendance is critical to ensuring that students receive the full benefit of the training and education provided by Data Spark.

Academic Performance:

To be considered for placement, students must achieve a minimum score of 85% in both assignments and mock interviews. And Score at least 55% in each module wise assessment and crack the final spot test at the end of course. This score demonstrates a strong foundation of knowledge and skills, and will help to prepare students for the challenges and demands of a career in data science.

Project Completion:

In addition to the academic requirements, students must also complete at least one project from the ones provided by Data Spark. This practical experience will help to enhance their skills and demonstrate their ability to apply what they have learned in a real-world setting.

By adhering to these requirements, students will be well-prepared for successful careers in data science, and Data Spark will be able to provide them with the best possible placement assistance. We are confident that this policy will benefit both our students and the industry, and we look forward to helping our graduates make a positive impact in the field of data science.
